

Global Product Owner (m/f/d)

Stuttgart, Germany

Dispendix is a young and fast-growing high-tech start-up dedicated to cutting-edge Liquid Handling technology in Lab Automation. Since 2018, Dispendix is part of the CELLINK Group.

CELLINK is a global leader in developing and delivering life-science solutions, equipping hundreds of labs and thousands of scientists worldwide with cutting-edge technologies that fuel groundbreaking scientific breakthroughs.

Our mission: We are driven by three mantras: **passion, inspiration, and persistence.**

We believe that automation and microtechnology will bring the understanding and control of individual cells to a whole new level and empower our customers to serve patients faster and better. Our products enable our customers to bring important drugs faster and more safely to the market.

We are looking for a **Global Product Owner** to serve out of our office in **Stuttgart, Germany**.

Responsibilities

- Own the product, product strategy and the development backlog by defining future product features and prioritizing them
- Define what products need to be commercially successful
- Develop acceptance criteria and definitions-of-done
- Coach teams in Agile values and Scrum practices
- Planning and owning review meetings
- Shape our existing processes and procedures based on your experience in agile set-ups
- Stakeholder management: Frequent collaboration across R&D as well as other stakeholder like Management, Sales, Applications and After Sales Support
- Act as a driver for change, speaking up on all levels, connecting different interfaces and stakeholder across the organization by generating clarity, focus and outcome that matters
- Collaborate closely with the Management team to improve the value-delivering capability of our product development organization
- You report directly to the CTO
- Technical university degree or scientific university degree and extended experience in physical product development
- 5+ years business (preferred) or technology work experience in the Life Science Industry, e.g. Product Management (preferred), Sales/Marketing or Product Development
- Good knowledge of customer/business operations within Lab Automation. Knowledge about Liquid Handling and low volume dispensing is a plus
- Business level fluency in English – written and spoken. German is a plus
- Willingness to travel internationally to participate in conferences, trade shows and customer visits

Who you are:

- Demonstrated Agile (Scrum) experience
- High level of knowledge in product development objectives and product portfolio strategies (with a focus on devices/hardware)
- Proven track record in experimenting, failing fast and designing modified success stories
- Strong communication skills and networker. Able to forge relationships with a wide range of colleagues across many functions / capabilities / locations and able to navigate effectively and efficiently

Qualifications

The Basics:

- Strong leader with demonstrated experience in leading teams without disciplinary power

Do you want to join a company that develops sophisticated, cutting-edge products for the life science industry? Do you love to work in an interdisciplinary and international team of highly skilled, young, and energetic people? Make an impact and join us building the lab instruments of the future!
