

R&D Senior Engineer Electronics in Life Science Startup (m/f/d)

Stuttgart, Germany

Dispindex is a young and fast-growing high-tech start-up dedicated to cutting-edge Liquid Handling technology in Lab Automation. Since 2018, Dispindex is part of the CELLINK Group.

CELLINK is a global leader in developing and delivering life-science solutions, equipping hundreds of labs and thousands of scientists worldwide with cutting-edge technologies that fuel groundbreaking scientific breakthroughs.

Our mission: We are driven by three mantras: **passion, inspiration, and persistence.**

We believe that automation and microtechnology will bring the understanding and control of individual cells to a whole new level and empower our customers to serve patients faster and better. Our products enable our customers to bring important drugs faster and more safely to the market.

We are looking for a **R&D Senior Engineer Electronics** to serve out of our office in **Stuttgart, Germany**.

Responsibilities

- Develop cutting-edge technology and products in the field of electronic modules and embedded systems
- Design, test and iterate on products like our patented DropDetection light-barrier module to detect nanodroplets in flight
- Work in an agile environment with a highly talented teams of engineers and application scientists
- Lead and take responsibility for the development of our hardware electronics

Qualifications

- Bachelors or Master degree in Electrical Engineering or a similar field
- 3-5 years of professional experience
- Knowledge in Firmware and embedded skills are a plus.
- Good communication skills and the ability to work in an international and young organization
- Good German and English skills
- You are a motivated and talented professional who enjoys working in an international team of friendly and smart people

Do you want to join a company that develops sophisticated, cutting-edge products for the life science industry? Do you love to work in an interdisciplinary and international team of highly skilled, young, and energetic people? Make an impact and join us building the lab instruments of the future!

Please send your comprehensive application, including job title, your salary expectations and the earliest possible starting date, as a single pdf-file by e-mail to: jobs@dispindex.com.

At **Dispindex**, we don't just accept difference — we celebrate it, we support it, and we thrive on it for the benefit of our employees, our products, and our community. We are an equal opportunity workplace and will always pride ourselves on being a collaborative environment.
