

Software Engineer in test / DevOps in Life Science Startup (m/f/d)

Stuttgart, Germany

Dispindex is a young and fast-growing high-tech start-up dedicated to cutting-edge Liquid Handling technology in Lab Automation. Since 2018, Dispindex is part of the CELLINK Group.

CELLINK is a global leader in developing and delivering life-science solutions, equipping hundreds of labs and thousands of scientists worldwide with cutting-edge technologies that fuel groundbreaking scientific breakthroughs.

Our mission: We are driven by three mantras: **passion, inspiration, and persistence.**

We believe that automation and microtechnology will bring the understanding and control of individual cells to a whole new level and empower our customers to serve patients faster and better. Our products enable our customers to bring important drugs faster and more safely to the market.

We are looking for a **Software Engineer** to serve out of our office in **Stuttgart, Germany.**

Responsibilities

- You consider yourself a software engineer with a strong focus towards automated testing
- As someone who has already gained and shown that expertise in a previous job (Software Engineer in Test, QA, or DevOps) you can see yourself taking on ownership of this area at an exciting and fast-growing young company
- To achieve your goals, you possess decent communication skills and can work with others at ease
- You have worked with desktop applications and/or embedded devices before
- You have some familiarity with the tech stacks C#/WPF or C++/Qt

Qualifications

- You consider yourself a software engineer with a strong focus towards automated testing
- As someone who has already gained and shown that expertise in a previous job (Software Engineer in Test, QA, or DevOps) you can see yourself taking on ownership of this area at an exciting and fast-growing young company
- To achieve your goals, you possess decent communication skills and can work with others at ease
- You have worked with desktop applications and/or embedded devices before
- You have some familiarity with the tech stacks C#/WPF or C++/Qt
- Preferably you have worked with 3 or more of the following technologies: Git and Git Flow, SCRUM and Agile Methods, Ranorex Studio (or other UI testing framework), SonarCube
- Ability to self-organize and work independently within a range of given duties
- Good English and German skills

Do you want to join a company that develops sophisticated, cutting-edge products for the life science industry? Do you love to work in an interdisciplinary and international team of highly skilled, young, and energetic people? Make an impact and join us building the lab instruments of the future!

Please send your comprehensive application, including job title, your salary expectations and the earliest possible starting date, as a single pdf-file by e-mail to: jobs@dispindex.com.

At Dispendix, we don't just accept difference — we celebrate it, we support it, and we thrive on it for the benefit of our employees, our products, and our community. We are an equal opportunity workplace and will always pride ourselves on being a collaborative environment.
